METRANS on the Move: Our Weekly Newsletter for Students

Editor-in-Chief Rui (Rae) Zhang at Pomona Transit Center with a Foothill Transit electric bus

Welcome to METRANS On the Move, our weekly transportation newsletter produced by students. This week we feature PSR students' attendance at the IEEP Annual Dinner, USC ITE Chapter's achievements at the 2018 ITE Student Leadership Summit, and a study on the congestion relieving effects of ride-hailing apps by UC Davis. We also encourage students and practitioners to take advantage of the numerous opportunities which follow the news section.

We invite contributions from throughout the transportation community of both content and original articles. Contact me or any member of our student team to share your events, opportunities, news, opinions, and accomplishments!

Rui (Rae) Zhang

USC Chapter Attends 2018 ITE Western District Leadership Summit At Oregon State University

By Rachel Krusenoski, B.S. USC Price School Urban Studies and Planning

From January 19 to January 21, 2018, students representing the USC Chapter of the Institute of Transportation Engineers attended the 5th annual

2018 ITE Western Leadership Summit at Oregon State University in Corvallis, OR. The summit gave students from various universities from across the western district the opportunity to collaborate, meet leading professionals in the field and further develop their leadership skills.

How Lyft And Uber Can Fix - Not Cause Congestion

While evidence mounts that Uber and Lyft are stealing rides from public transit, there's still a chance for ride-hailing apps to do more to help than hurt congestion. The key: using ride-hailing apps to carpool, says the article written by Dan Sperling, Director of Institute of Transportation Studies at UC Davis and Austin Brown, Executive

Director of Policy Institute for Energy, the Environment and the Economy at UC Davis.

**Free TRB Webinar
TRID Searching
February 22, 2018, 11:00 am to 12:30 pm Pacific Time**

TRB will conduct a webinar on Thursday, February 22, 2018 from 2:00pm to 3:30pm ET that will discuss how to get the most out of the TRID database when searching from your desktop or mobile device. This webinar will explore recent updates to the TRID interface, as well as provide practical tips when using the database.

TRID is the world's largest and most comprehensive bibliographic resource on transportation research information. Maintained by TRB, TRID covers all modes and disciplines of transportation and contains more than 1.2 million records of references to books, technical reports, conference proceedings, and journal articles in the field of transportation research. More than 165,000 records contain links to full-text documents.

Webinar Presenter: Bill McLeod, Transportation Research Board

UC Davis ITS 3 Revolutions Conference
February 26 - 27, 2018

The ARC- Activities and Recreation Center, 232 Shields Ave, Davis, CA 95616

On February 26-27, 2018 the 3 Revolutions Policy Conference will assemble leading transportation experts and leaders to explore how we can steer shared, electric, and automated technologies and services to a better future. Join us in moving beyond hype and hostility in considering how we can anticipate--rather than react to--environmental, economic, and social challenges and opportunities.

The first 200 participants to register will receive a pre-release copy of the Professor Daniel Sperling's new book, Three Revolutions: Steering Automated, Shared, and Electric Vehicles to a Better Future, set for publication in March 2018.

Free TRB Webinar
Considerations For Pavement Applications and Maintenance at Airports
February 28, 2018, 11:00 am to 12:30 pm Pacific Time

TRB will conduct a webinar that features research from the [Airport Cooperative Research Program\(ACRP\)](#)'s [Report 159](#): Pavement Maintenance Guidelines for General Aviation Airport Management and [Research Report 178](#): Guidance for Usage of Permeable Pavement at Airports.

This webinar will discuss the development of a web-based airport pavement maintenance recommendation tool and the tool's use in helping general aviation personnel choose the appropriate treatment based on the conditions, climate, and the Federal Aviation Administration's airport classification of the facility. The presenters will also provide guidance on applying permeable pavements at airports.

This webinar is sponsored by the Airport Cooperative Research Program.

Webinar Presenters

- Tom Freeman, *Texas A&M Transportation Institute*
- Jeff Borowiec, *Texas A&M Transportation Institute*
- James Bruinsma, *Applied Pavement Technology, Inc.*

Registration questions? Contact Reggie Gillum at RGillum@nas.edu.

Spring 2018 METRANS Outreach Event
Engineering is SWEet
Saturday, March 3, 2018, 10:00 am to 12:00 pm
USC Main Campus

METRANS PSR is proud to partner with the Society of Women Engineers (SWE), a non-profit, global organization founded in 1950 which aims to provide female engineers with a supportive community and a greater voice in the engineering industry.

Help SWE, METRANS, and PSR inspire girls to pursue careers in engineering!

Come to join us for interactive games to encourage the next generation to consider a STEM career.

We are expecting around 60 girls to participate in 5 workshops, each lasting about 20 minutes.

During these conferences, students will present research across a wide variety of policy areas, through poster sessions and on conference panels with their peers. Participating students will gain valuable research presentation experience, as well as receive important feedback from academics, practitioners, and other students. Students will have several opportunities to network and make connections with a diverse group of policy professionals, as well as other policy students.

**2018 USC Price Externship Program - For USC Price Students
March 12 - 16, 2018**

The USC Price 2018 Externship Program is coming March 12-16, which is during your Spring Break! Externships offer you an extended "shadowing" opportunity, and provide real-world exposure to settings relevant to your current or desired area of study. In fact, 50% of students received an opportunity with their host site last year!

This program takes place during USC's Spring Break, and, as a result, will ideally enable you to spend up to five days actively working and engaging at a host site. Student participation is open to undergraduates and graduates of the Price School of Public Policy.

If you are interested, please keep the following in mind:

1. Externships are not for credit nor are they paid.
2. You are responsible for transportation, lodging and other incidentals.
3. Your resume must be uploaded in PDF format to complete your rsvp.

Need to have a USC account to log in to check more information.

**Free TRB Webinar
Improving the Resilience of Transit Systems Threatened by Natural Disasters
Now Accepting Student Resumes
March 12, 2018, 10:00 am to 12:00 pm Pacific Time**

TRB will conduct a webinar that features research from the [Transit Cooperative Research Program](#) (TCRP)'s Web-Only Document 70: Improving the Resilience of Transit Systems Threatened by Natural Disasters, [Volume 1: A Guide](#), [Volume 2: Research Overview](#), and [Volume 3: Literature Review and Case Studies](#).

The research provides "how to" steps to help transit agencies and others improve their resilience. Transit agencies across the U.S. face a multitude of threats from extreme weather and natural disasters. Ensuring that transit infrastructure and services are resilient to these threats is critical. This webinar will include presentations by several transit agencies featured in the guide. The presenters will provide first-hand accounts of their experiences and lessons learned as they implemented resilience strategies and projects.

Registration questions? Contact Reggie Gillum at RGillum@nas.edu.

Scholarships & Academic Opportunities

**Transportation Technology Tournament
Applications Due February 15, 2018**

The National Operations Center of Excellence (NOCOe) and the U.S. DOT ITS JPO PCB program announce a competition for students to work directly with state and local DOTs to solve real-world transportation problems utilizing ITS and TSMO solutions.

Student teams will assemble and work with a local or state agency to define a problem or challenge in their region, or choose to address one of the sample problems outlined below. After submitting an initial contest application identify the team and the problem or challenge, students will work with academic advisors to learn about potential ITS and TSMO solutions via online training programs outlined below. Teams will then utilize their experience, education, and new coursework to develop a solution or suite of solutions to directly address the originally defined problem. Students will submit their solutions via a proposal. Finalist teams will develop a presentation and then will be flown to the Institute of Transportation Engineers (ITE) 2018 Annual Meeting in Minneapolis to give a live presentation in front of a panel of judges made up of leaders in the ITS and TSMO community.

Please feel free to contact Adam Hopps at ahopps@transportationops.org or phone (202-680-0091) with any questions in advance of submission.

**Scholarship Opportunity to Study in Hong Kong
Annual Asia Institute for Political Economy
Deadline February 15, 2018**

The Fund for American Studies, in partnership with George Mason University and the University of Hong Kong, is pleased to announce the 16th annual Asia Institute for Political Economy (AIPE) taking place in Hong Kong from July 7 - 28, 2018.

The Fund for American Studies, in partnership with George Mason University and the University of Hong Kong, is pleased to announce the 16th annual Asia Institute for Political Economy (AIPE) taking place in Hong Kong from July 7 - 28, 2018.

Based in Hong Kong, AIPE offers a unique opportunity for students from Asia and the United States to explore fundamental issues related to political economy and government and delve into serious political and economic issues facing their countries. As the financial center of Asia, as well as the location of recent pro-democracy protests, Hong Kong is the perfect setting to bring together students to discuss these topics. Students engage in a rigorous academic course and participate in stimulating lectures given by the region's most esteemed experts. The combination of

educational, cultural, and social exchange allows participants to explore challenging ideas, form life-long friendships, and form cross-border networks that will greatly benefit their educational and professional development. Upon successful completion of the program students will gain undergraduate credit from George Mason University.

**Applications are accepted on a rolling basis until the application deadline of February 15, 2018,
with the possibility of an extension to March 1, 2018.**

For more information about AIPE, check the website www.tfasinternational.org/aipe or email Brigit Moore at bmoores@tfas.org.

**\$5,000 CTF Heckerth Scholarship
Applications Due Friday, February 16, 2018**

Students who attend a California university or community college, major in Civil Engineering, have a cumulative GPA of at least 3.5 and plan to pursue a career in transportation after graduation are encouraged to apply. The scholarship is competitive and based on the applicant's commitment to a career in transportation, current achievements, and academic record. Eligible applicants are a United States citizen, permanent resident, or documented international student.

To apply for the CTF Heckerth Scholarship download the application by clicking [here](#).

Contact CTF at sarah_west@transportationfoundation.org for more information.

Call For Proposals Of The Thomas Jefferson Fund
Applications Open until March 12, 2018, 9:00 Pacific Time

This program, launched by the Embassy of France in the United States and the FACE Foundation, aims to encourage and support cooperation among the most promising young French and American researchers, and foster forward-looking collaborative research projects.

Each selected French-American project will receive up to \$20,000 over a period of two years.

Applications are accepted in the three following fields:

- Humanities and Social Sciences (HSS),
- Science, Technology, Engineering and Mathematics (STEM),
- Science for Society (interdisciplinary STEM-HSS projects).

In support of the Make Our Planet Great Again initiative launched by President Emmanuel Macron in June 2017, the Thomas Jefferson Fund is offering additional grants this year for research projects related to:

- Earth System Science,
- Climate Change and Sustainability,
- Energy Transition.

10th National Aviation System Planning Symposium
21st Century Challenges in Aviation System Planning
May 20 - 22, 2018
The Lakefront Anchorage, 4800 Spenard Road, Anchorage, Alaska 99517
Call for Posters

The National Aviation System Planning Symposium (NASPS) is a triennial event organized with the goal of assessing the state of the art in system planning, addressing current issues confronting the airport and aviation industry, and identifying research needs to inform the future research agenda for aviation system planning. The symposium brings together system planning consultants, airport and aviation system planners and managers, air carrier and other aviation industry representatives, Federal and state transportation officials, and others interested in the future development of the aviation system and its role in the larger multi-modal transportation system for two days of meetings, presentations, and networking. The NASPS provides a unique opportunity to gather people who are actively involved in planning the aviation system to focus on its future development and improvement for a sustainable, healthy future. The symposium is cosponsored by the Transportation Research Board committees on Aviation System Planning and [Intergovernmental Relations in Aviation](#).

Participation grants are available to provide financial assistance to enable suitably qualified graduate students to attend the 10th National Aviation System Planning Symposium. Learn more about eligibility and other requirements of a [Graduate Student Participation Grant](#) online.

Seeking for Researchers

California Policy Lab

California Policy Lab is searching for three, full-time research positions, including a post-doc position in labor economics, one Ph.D. level staff position for homelessness research, and one statistical data analyst. These positions will work on a range of projects with me and with faculty and staff at the California Policy Lab, a new initiative at UCLA and UC Berkeley that supports research partnerships between university academics and California state and local government, focused on the analysis of administrative data. They are described in more detail below.

- 1) A post doc working directly with me on projects in labor economics based on a range of confidential administrative data sets.
- 2) A full-time Ph.D. level Research Director with the California Policy Lab (CPL).
- 3) A third position is for a full-time data analyst.

For more information about the California Policy Lab and to learn more about our current projects, visit: www.capolicylab.org

If interested, email Kelle Taylor at kelletaylor@ucla.edu with resume and cover letter.
