METRANS on the Move: Our Weekly Newsletter for Students

Yang with Terence and Jadon, students he tutors in Los Angeles.

I am METRANS student graphic designer, Yang Deng, a masters student at USC majoring in transportation engineering, and am honored to welcome you to this issue. This week, you will read about many opportunities for involvement – field trips, conference sponsorships, and more. We are always looking for new sources of knowledge, articles and content, and encourage you to reach out to us with your ideas. Please contact me, any of the student assistants, or METRANS Associate Director Victoria Deguzman at victoriv@usc.edu to join the effort!

PSR and ITS UC Irvine Host Colloquium on Redefining Mobility

*By Priyanka Ramasamy, USC Viterbi
MSCE Transportation Engineering, 2018*

On January 24, 2018, ITS-Irvine with co-sponsor PSR Center hosted “Graduate Colloquium on Redefining Mobility.” The nearly 80 attendees, who included faculty, practitioners, and students from UC Irvine, UCLA, and USC, gained knowledge on the current issues and future demands on mobility.

Using Big Data To Improve Traffic Counts

Minnesota Department of Transportation's (MnDOT) Traffic Forecasting and Analysis Section Director Gene Hicks thought there had to be a better way to count the number of vehicles traveling his state's roadways. Hicks oversees the tedious task of laying out road tubes at approximately 33,000 sites (about 12,000 each year) to determine traffic volumes.

Free TRB Webinar TRID Searching February 22, 2018, 11:00 am to 12:30 pm Pacific Time

TRB will conduct a webinar on Thursday, February 22, 2018 from 2:00pm to 3:30pm ET that will discuss how to get the most out of the TRID database when searching from your desktop or mobile device. This webinar will explore recent updates to the TRID interface, as well as provide practical tips when using the database.

TRID is the world's largest and most comprehensive bibliographic resource on transportation research information. Maintained by TRB, TRID covers all modes and disciplines of transportation and contains more than 1.2 million records of references to books, technical reports, conference proceedings, and journal articles in the field of transportation research. More than 165,000 records contain links to full-text documents.

Webinar Presenter: Bill McLeod, Transportation Research Board

Registration questions? Contact Reggie Gillum at RGillum@nas.edu.

UC Davis ITS 3 Revolutions Conference February 26 - 27, 2018 The ARC- Activities and Recreation Center, 232 Shields Ave, Davis, CA 95616

On February 26-27, 2018 the 3 Revolutions Policy Conference will assemble leading transportation experts and leaders to explore how we can steer shared, electric, and automated technologies and services to a better future. Join us in moving beyond hype and hostility in considering how we can anticipate--rather than react to--environmental, economic, and social challenges and opportunities.

The first 200 participants to register will receive a pre-release copy of the Professor Daniel Sperling's new book, Three Revolutions: Steering Automated, Shared, and Electric Vehicles to a Better Future, set for publication in March 2018.

Free TRB Webinar Considerations For Pavement Applications and Maintenance at Airports February 28, 2018, 11:00 am to 12:30 pm Pacific Time

TRB will conduct a webinar that features research from the [Airport Cooperative Research Program\(ACRP\)'s Report 159: Pavement Maintenance Guidelines for General Aviation Airport Management](#) and [Research Report 178: Guidance for Usage of Permeable Pavement at Airports](#).

This webinar will discuss the development of a web-based airport pavement maintenance recommendation tool and the tool's use in helping general aviation personnel choose the appropriate treatment based on the conditions, climate, and the Federal Aviation Administration's airport classification of the facility. The presenters will also provide guidance on applying permeable pavements at airports.

This webinar is sponsored by the Airport Cooperative Research Program.

Webinar Presenters

- Tom Freeman, *Texas A&M Transportation Institute*
- Jeff Borowiec, *Texas A&M Transportation Institute*
- James Bruinsma, *Applied Pavement Technology, Inc.*

Registration questions? Contact Reggie Gillum at RGillum@nas.edu.

**Spring 2018 METRANS Outreach Event
Engineering is SWEet
Saturday, March 3, 2018, 10:00 am to 12:00 pm
USC Main Campus**

METRANS PSR is proud to partner with the Society of Women Engineers (SWE), a non-profit, global organization founded in 1950 which aims to provide female engineers with a supportive community and a greater voice in the engineering industry.

Help SWE, METRANS, and PSR inspire girls to pursue careers in engineering!
Come to join us for interactive games to encourage the next generation to consider a STEM career. We are expecting around 60 girls to participate in 5 workshops, each lasting about 20 minutes.

**Transportation Is A Women's Issue- Part II A Gendered Planning Mismatch Discussion
By UCLA Institute of Transportation Studies
Wednesday, March 7, 2018, 6:00 pm to 7:30 pm
Japanese American Cultural & Community Center, 244 South San Pedro Street,
Los Angeles, CA 90012**

What potential do new mobility options, bikesharing, ridesourcing, microtransit hold for closing the gender gap between women doing shorter trips and more household serving trips ? Or will they rather reinforce these divergent travel patterns? Join the conversation about women's travel patterns, current and future transportation planning and policy. Our experts will share their previous research, and discuss future plans from the City and County of Los Angeles to better serve women's travel needs and patterns.

Distinguished Speakers:

Dr. Evelyn Blumenberg, *UCLA Department of Urban Planning*
Seleta Reynolds, *Los Angeles Department of Transportation*
Stephanie Wiggins, *Los Angeles County Metropolitan Transportation Authority*

**Free Registration.
Reception will follow after the event. Childcare assistance provided.
See the flyer for more information.**

During these conferences, students will present research across a wide variety of policy areas, through poster sessions and on conference panels with their peers. Participating students will gain valuable research presentation experience, as well as receive important feedback from academics, practitioners, and other students. Students will have several opportunities to network and make connections with a diverse group of policy professionals, as well as other policy students.

**Free TRB Webinar
Improving the Resilience of Transit Systems Threatened by Natural Disasters
Now Accepting Student Resumes
March 12, 2018, 10:00 am to 12:00 pm Pacific Time**

TRB will conduct a webinar that features research from the [Transit Cooperative Research Program](#) (TCRP)'s Web-Only Document 70: Improving the Resilience of Transit Systems Threatened by Natural Disasters, [Volume 1: A Guide](#), [Volume 2: Research Overview](#), and [Volume 3: Literature Review and Case Studies](#).

The research provides "how to" steps to help transit agencies and others improve their resilience. Transit agencies across the U.S. face a multitude of threats from extreme weather and natural disasters. Ensuring that transit infrastructure and services are resilient to these threats is critical. This webinar will include presentations by several transit agencies featured in the guide. The presenters will provide first-hand accounts of their experiences and lessons learned as they implemented resilience strategies and projects.

Registration questions? Contact Reggie Gillum at RGillum@nas.edu.

**Free TRB Webinar
Interpreting the Results of Airport Water Monitoring
March 21, 2018, 11:00 am to 2:30 pm Pacific Time**

TRB will conduct a webinar on Wednesday, March 21, 2018, from 2:00PM to 3:30PM ET that features research from the [Airport Cooperative Research Program](#)(ACRP)'s [Research Report 166](#): Interpreting the Results of Airport Water Monitoring.

This research provides comprehensive guidance and a set of tools that operators of airports of varying sizes can use to understand, diagnose, and interpret airport water quality. The guidebook addresses water leaving the airport that does not go to an off-site treatment facility. This webinar will discuss the drivers and benefits of implementing the guidance, including reducing compliance risk, reducing monitoring costs, and improving decision-making on large infrastructure capital projects.

Webinar Presenters

Tim Arendt, *Gresham, Smith, and Partners*
Devon Seal, *Gresham, Smith, and Partners*

Scholarships & Academic Opportunities

2018 Parking Solutions Competition: Garage of the Future **Applications Due February 23, 2018**

The International Parking Institute (IPI) Parking Solutions Competition is a design and development challenge for college students. This competition is a chance for students to express their rendition of The Garage of the Future. IPI seeks to engage students in a challenging parking solutions exercise based on real-world scenarios. Students can submit independently or form their own multidisciplinary teams. Finalists will be selected on the basis of creativity, innovation, realism, applicability, scalability, overall presentation and the idea's ability to benchmark success and demonstrate return on investment.

Notifications and invitations to the four finalists: **March 2018**
Four finalists to IPI's 2018 Conference and Expo: **June 2018**

Call For Proposals Of The Thomas Jefferson Fund **Applications Open until March 12, 2018, 9:00 Pacific Time**

This program, launched by the Embassy of France in the United States and the FACE Foundation, aims to encourage and support cooperation among the most promising young French and American researchers, and foster forward-looking collaborative research projects.

Each selected French-American project will receive up to \$20,000 over a period of two years.

Applications are accepted in the three following fields:

- Humanities and Social Sciences (HSS),
- Science, Technology, Engineering and Mathematics (STEM),

- Science for Society (interdisciplinary STEM-HSS projects).

In support of the Make Our Planet Great Again initiative launched by President Emmanuel Macron in June 2017, the Thomas Jefferson Fund is offering additional grants this year for research projects related to:

- Earth System Science,
- Climate Change and Sustainability,
- Energy Transition.

10th National Aviation System Planning Symposium 21st Century Challenges in Aviation System Planning May 20 - 22, 2018 The Lakefront Anchorage, 4800 Spenard Road, Anchorage, Alaska 99517 Call for Posters

The National Aviation System Planning Symposium (NASPS) is a triennial event organized with the goal of assessing the state of the art in system planning, addressing current issues confronting the airport and aviation industry, and identifying research needs to inform the future research agenda for aviation system planning. The symposium brings together system planning consultants, airport and aviation system planners and managers, air carrier and other aviation industry representatives, Federal and state transportation officials, and others interested in the future development of the aviation system and its role in the larger multi-modal transportation system for two days of meetings, presentations, and networking. The NASPS provides a unique opportunity to gather people who are actively involved in planning the aviation system to focus on its future development and improvement for a sustainable, healthy future. The symposium is cosponsored by the Transportation Research Board committees on Aviation System Planning and [Intergovernmental Relations in Aviation](#).

Participation grants are available to provide financial assistance to enable suitably qualified graduate students to attend the 10th National Aviation System Planning Symposium. Learn more about eligibility and other requirements of a [Graduate Student Participation Grant](#) online.

**Seeking for Researchers
California Policy Lab**

California Policy Lab is searching for three, full-time research positions, including a post-doc position in labor economics, one Ph.D. level staff position for homelessness research, and one statistical data analyst. These positions will work on a range of projects with me and with faculty and staff at the California Policy Lab, a new initiative at UCLA and UC Berkeley that supports research partnerships between university academics and California state and local government, focused on the analysis of administrative data. They are described in more detail below.

- 1) A post doc working directly with me on projects in labor economics based on a range of confidential administrative data sets.
- 2) A full-time Ph.D. level Research Director with the California Policy Lab (CPL).
- 3) A third position is for a full-time data analyst.

For more information about the California Policy Lab and to learn more about our current projects, visit: www.capolicylab.org

If interested, email Kelle Taylor at kelletaylor@ucla.edu with resume and cover letter.
