Electrification of Transportation & Careers at Southern California Edison

Join us to learn about **Electric Vehicles (EVs)** and the impact to the utility grid with Dale Mendoza, and learn about the opportunities for transportation electrification and great careers direct from a Senior Adviser at Southern California Edison (SCE).

Dale Mendoza has been at SCE for 42 years, part of the Electric Vehicle world since the early 1990s and battery technologies since 1979. He is currently a Senior Advisor for Substations at SCE.

RSVP required. Lunch will be served.
