

METRANS Research Seminar

TRACKING TRUCK MOVEMENTS AT THE PORTS OF LONG BEACH & LOS ANGELES

Date: Thursday November 5, 2015

Time: 6:30-8:00pm

**Seminar location: 1000 N. Studebaker Road,
Long Beach, 90815 - CITT**

Light dinner included

Free parking available

**RSVP by 12:00 pm on
November 3 to
Marisa Eide at
Marisa.Eide@csulb.edu or
(562) 985-2877**

Abstract: In this seminar, we will discuss a new approach to track truck movements in the Los Angeles basin. We will show how mobile applications can be used to obtain information about the location of trucks and to determine truck turnaround times. We will also discuss how such an application has the potential to optimize truck movements.

Dr. Burkhard Englert

Dr. Burkhard Englert is currently the chair of the Computer Engineering and Computer Science Department at California State University, Long Beach. He received his Ph.D. from the University of Connecticut in 2000. From 2000-2003, he was an Adjunct Assistant Professor at UCLA. His research interests are in supply chain optimization and distributed computing.

**A METRANS Transportation Research Seminar
Sponsored by METRANS, CSULB Center for International Trade and
Transportation, and CSULB Chapter of the Institute of Transportation Engineers**
